re: Food Service, Supply Chain Issues

Dear Parent/Guardian:

We are currently still having many challenges with disruptions in the supply chain. Issues are all across the board with varying products, such as foam lunch trays, plastic utensils, prepackaged breakfast items, fresh produce, pizza, lunch meat, breadsticks, string cheese, etc. All segments have been affected, and it looks like it will continue to be a challenge well into 2022.

Fortunately, students in our district have felt a minimal impact so far as we utilize similar product substitutions and sourcing from multiple vendors. We will make menu changes as necessary, and we will not compromise the quality of the food we serve our students. We appreciate your patience and understanding as we work through these difficulties and will do everything we can to ensure that students in our district continue to receive nutritious, well-balanced meals.

Thank you for your understanding.

Sincerely,

Jodie Havert

Director of Foodservice

Wilmington City School/Sodexo
